PROFILE

Fourth-year LL.B candidate at the University of Ibadan (CGPA: 3.23/4.0, Second Class Upper) building toward a career at the intersection of law and technology in Africa. Currently serving as an appointed Frontend Engineer on a funded fintech mobile application while completing a full-stack web development bootcamp. The goal is to advise companies, institutions, and governments on legal and regulatory challenges that require both genuine legal understanding and hands-on technical knowledge — the kind of problems that lawyers alone cannot solve and developers alone would not think to frame correctly.

EDUCATION

LL.B (Bachelor of Laws)

Expected 2028

University of Ibadan, Faculty of Law, Ibadan, Nigeria

- CGPA: 3.23 / 4.0 — Second Class Upper standing (4th Year)
- Core courses: Evidence, Land Law, Equity and Trusts, Criminology, Environmental Law, Conflict of Laws
- Areas of developing focus: Public International Law, Legal Technology, Cyber Law, Commercial Law

Full-Stack Web Development Bootcamp

2025 — In Progress

Dr. Angela Yu — Udemy (45 Sections, 374 Lectures, 61+ Hours)

- Currently at Section 11 (JavaScript). Covers HTML, CSS, JavaScript, Node.js, Express.js, PostgreSQL, React, MERN Stack.
- Projected completion: December 2026. Live project: love-score-calculator-psi.vercel.app

CAREER DIRECTION

Target: Legal technology and digital law in Africa — advising businesses and institutions on regulatory compliance, digital contracts, data governance, and the legal frameworks governing technology products.

Concrete next milestones:

- Push CGPA above 3.5 by end of 2027.
- Complete bootcamp and deploy a full MERN stack portfolio project by December 2026.
- Secure one legal or legal-tech internship before final year.
- Publish one article on legal technology or digital law in a credible student or professional journal before graduation.

EXPERIENCE

Frontend Engineer

April 2026 — Present

DotVests Mobile — Fintech Startup (Expo / React Native + Tamagui)

- Audited the entire frontend codebase on joining the project — identified 30 gaps between the existing implementation and the PRD, documented every one of them, and delivered a phased 18-day implementation roadmap before writing a single line of new code.
- Designed the component library from scratch: 20+ self-contained, reusable components across brand identity, authentication, data display, onboarding, and waitlist domains — each documented with prop contracts for team handoff.
- Wrote the frontend API contract covering 7 backend endpoints — specifying exact request shapes and expected response types — so UI work could proceed in parallel without being blocked by backend availability.
- Produced a 9-section technical audit document that became the team's primary frontend reference: screen-by-screen status, component architecture specifications, API contracts, and a sequenced delivery plan across 7 phases.

- Tech stack: React Native (Expo), Tamagui, Reanimated, expo-secure-store, expo-sharing, JWT authentication, GA4 analytics integration.

General Secretary

1447 AH / 2026 Session

Muslim Students' Society of Nigeria (MSSN), University of Ibadan Branch

- Responsible for the day-to-day running of the Branch Secretariat — meeting records, correspondence, and inter-institutional coordination across the Branch and Akinyele Area Council.
- Presented a comprehensive administrative report (January to July 2026) covering welfare, academic, da'wah, media, and business operations across the session.
- Maintained confidential institutional records for 2,000+ student accounts with zero reported errors.

Systems Automation & Protocol Strategist

November 2025 — November 2026

Muslim Students' Society of Nigeria (MSSN), University of Ibadan Branch

- Built a validation system for 2,000+ student and financial records that caught errors at intake — post-submission corrections dropped to zero after deployment.
- Authored process documentation detailed enough for a new operator to run the full system without any manual handover.
- Coordinated dispatch of 8,000+ personalized institutional notices with zero errors across all batches.

Director of Studies & Conference Chairman

January 2023 — December 2025

Akinyele Area Council, Ibadan

- Managed scheduling, reporting, and stakeholder communication across 3 institutional accounts simultaneously with a 100% on-time delivery rate.
- Planned and delivered a 1,000+ attendee annual conference on time and within budget two years running, cutting administrative overhead by 30%.
- Maintained financial records across program cycles, reconciling all payments and receipts before each reporting period.

Web Development Tutor

2026

Isheglos Secondary School, Moniya, Ibadan

- Designed and delivered a ten-week HTML and CSS curriculum for secondary school students, from web fundamentals through to a capstone personal website build.
- Submitted full curriculum document — lesson plans, live code examples, exercises, and assessment criteria — to school management ahead of commencement.

AI Systems Builder & Automation Engineer

2024 — Present

Independent Client Projects

- Built client communication and routing workflows that reduced response turnaround from several hours to under 10 seconds.
- Tools: n8n, Make (Integromat), API routing, webhook configuration, workflow automation.

SKILLS

Mobile & Web Development: React Native, Expo, Tamagui, Reanimated, HTML5, CSS3, Flexbox, Vanilla JavaScript (ES6+), Git, GitHub, Vercel

Backend & Tools (In Progress): Node.js, Express.js, PostgreSQL, REST APIs, React.js, MERN Stack

Automation & Systems: n8n, Make (Integromat), API routing, regex-based data validation, webhook configuration

Legal: Legal research, case analysis, structured argumentation, statutory interpretation, contract review, compliance documentation

Administrative: Google Workspace, Microsoft Excel, scheduling, database maintenance, process documentation, multi-account coordination

Languages: English (fluent), Arabic (reading — Qur'anic level)

CERTIFICATIONS

- AI Fluency: Framework & Foundations — Anthropic (in partnership with University College Cork, Ringling College of Art + Design, Higher Education Authority, and National Forum)
- Claude 101 — Anthropic
- Project Management — Accenture
- Data Science Virtual Experience — British Airways
- Digital Technology — GE
- Leadership — HP LIFE

PROJECTS

DotVests Mobile — Frontend Implementation Audit

April 2026

Confidential — DotVests Product & Engineering Team

- 30-task frontend audit and implementation plan for a React Native fintech app. Full component architecture, API contracts, and phased delivery roadmap across 7 phases.

Love Score Calculator

2026

Live: love-score-calculator-psi.vercel.app | GitHub: github.com/Rosheed124

- JavaScript web application built with HTML5, CSS3, and vanilla JavaScript. Deployed on Vercel as part of the Angela Yu Full-Stack Web Development Bootcamp.

COMMUNITY & LEADERSHIP

- General Secretary, MSSN University of Ibadan Branch (1447 AH / 2026)
- Former Director of Studies and Conference Chairman, Akinyele Area Council (2023–2025)
- Active member, Muslim Students' Society of Nigeria, University of Ibadan

ACADEMIC & PROFESSIONAL INTERESTS

Legal Technology, Digital Law, Data Governance, Cyber Law, Public International Law, African Regulatory Frameworks, Mobile & Web Development, Contract Automation, Access to Justice Technology
